

Luke Buonanno

Mentor: Emma

Location: Inpatient Pediatrics

Hours: 2 hours and 30 minutes

Profession: Senior intern

1. I followed the doctors interns and residents on their rounds and was able to see a few patient interactions. I saw a teenager who had stepped on a marker and had to be hospitalized due to the resulting infection. They subsequently discharged him with orders to soak his foot twice a day. I saw a little girl who required a translator so they could talk to her and it was neat to see how fluidly the interaction was and how the mother was relieved and supported by the doctors involved in the round. Finally, I saw a small child who was dealing with profuse diarrhea and was able to see how the doctors formed an action plan to replace the fluids he was losing as a result.
2. The three or four physicians and interns worked together pretty fluidly as a team in discussing strategies and interacting with patients creating a reassuring presence.
3. Three adjectives I would use to describe this work environment is friendly, professional, and reassuring. I would use these three words because the rounds that we made were focused on conversing with the patients and their family members in order to touch base with them.

3.

Emerging Health Professionals Shadowing Schedule
Wednesday am February 14 8:00am – 10:30am
Dr. DeBlois' Students
